

Exercise 3

Exercise 3

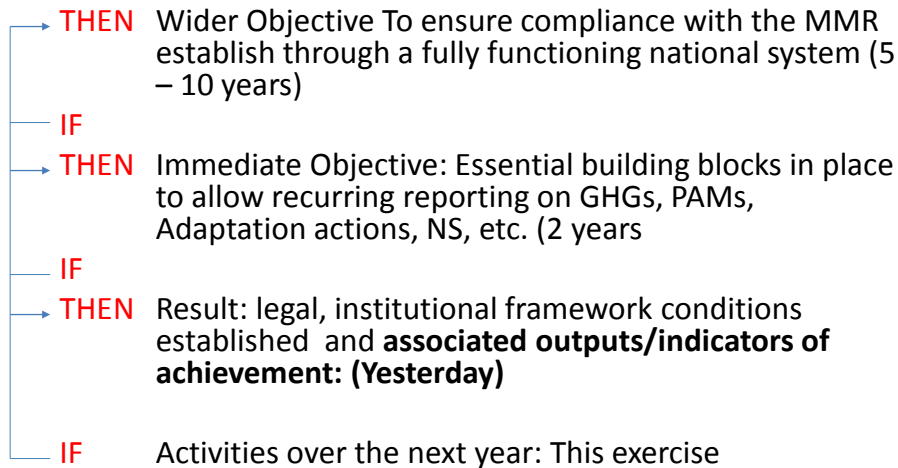

- Yesterday we asked to prepare
 - Long term vision of national system structure (translated in organigramme)
 - Short term outputs (2 years) required and associated barriers/challenges

Design Management Structure

Short time objectives

OUTPUT/Milestone	Why?	Any barriers
Legal basis -	Ensure human, financial and institutional arrangements	Time constrain Political decision Lack of international obligation
Collect sectoral experts	Technical implementation of the obligation	Access to experts
Establish QMS	Improve the quality of inventory	Lack of knowledge/experience
Establish the base year	To ensure the completeness	Lack of historical data

Exercise 3

Question 1:

- Revisit already defined outputs. Are you still happy with them? Redefine?

Question 2:

- We receive a modest budget for the next 2 years to deliver outputs
- Which activities I will need to implement implement (possibly in sequential order) to achieve identified outputs

Exercise 3

Example:

- Step 1: Legal and institutional analysis
- Step 2: Define options for National system
- Step 3: Select most appropriate option
- Step 4: Legal work
- Step 5: MoUs
